Notes

- * CPRI issues two kinds of documents; Test Report and Sealed Certificate. Test Report contains records of test values, physical condition of the apparatus before, during and after the test, test oscillograms and photographs. Test Report does not include certification on the performance of the apparatus. The Sealed Certificate is issued only when an apparatus of a particular type and rating has satisfactorily passed all the specified tests in compliance of the conditions stipulated in a published National or International Standard.
- * Test results relate only to the apparatus tested.
- * Reproduction of this report in any format other than this current format, and / or partial reproduction of this report, without the written approval of CPRI, is not permitted.
- * Corrections or erasures anywhere within this report invalidate the report.
